# Ambition Statement

“Scotland should be the best place to learn. We want each child to enjoy an education that encourages them to be the best they can be and provides them with a full passport to future opportunity”

# To achieve this shared ambition we need:

- **Improved educational outcomes for all learners –**

Consistently over an agreed period, promoting greater depth and breadth of attainment and achievement and improving the educational outcomes of all our children and young people.

- **Equity in educational outcomes –**

Consistently over an agreed period, to make progress in eroding the deeply embedded correlation found in the majority of Scottish schools between a child's relative point of social deprivation/affluence and their educational attainment.

- **Higher public confidence in education.**

# Early Years Collaborative

## Ambition

*To make Scotland the best place in the world to grow up in by improving outcomes, and reducing inequalities, for all babies, children, mothers, fathers and families across Scotland to ensure that all children have the best start in life and are ready to succeed.*

## Stretch Aim 4

To ensure that 90% of all children within each Community Planning Partnership area will have reached all of the expected developmental milestones and learning outcomes by the end of Primary 4, by end-2021.
